

Spiral Information

About Us

Northern Fabricators offers custom fabrication services for sheet metal and other products, located in Rochester, NY. Exceeding our customers' expectations is our number one goal.

All structural steel and sheet metal needs are handled by expert in-house fabricators and welders, using skilled labor from the Local 46 Sheet Metal Workers Union, providing superior quality.

Customers can find a large selection of custom parts ranging from 6 to 26 gauge metal. We specialize in custom welding, metal fabrication and one-of-a-kind designs. Please visit our website www.northernfabricators.com to see how we can assist you with your next sheet metal project.
